MOFAQ AL FAIZ

Senior Software Engineer | Red Hat, Ex-IBMer

tamim.alfaiz@aol.com | Riyadh, Saudi Arabia | https://mofaq-01.github.io | mofaq-01

ORCID: 0009-0000-9188-366X | Workshops

Senior Software Engineer with more than seven years of experience in applied artificial intelligence, natural language processing, data engineering, software containerization, automation, and cloud-native systems. Experience across the banking, telecommunications, and healthcare industries, with professional experience at Red Hat and IBM.

EXPERIENCE

Senior Software Engineer

Red Hat Middle East

Aug 2021 – Present | Riyadh, Saudi Arabia

Red Hat Services Delivery.

- Delivered OpenShift cluster administration, architecture, and implementation services for enterprise clients across banking and telecommunications.
- Performed cluster upgrades, troubleshooting, capacity planning, and performance analysis across production environments.
- Integrated Bitbucket continuous integration and continuous delivery pipelines with Argo CD on Advanced Cluster Management; configured Quay for offline container image mirroring and image security controls using Docker and Podman.
- Developed Customer Engagement Reports and reference architectures documenting design decisions and delivery considerations.

Data Scientist

IBM Middle East

Sep 2019 – Aug 2021 | Riyadh, Saudi Arabia

IBM Data and AI Consulting.

- Developed and trained Watson Assistant chatbots for healthcare, telecommunications, and other applications, including a patient inquiry chatbot for the Ministry of Health and a chatbot for STC Solutions.
- Processed approximately 158,000 scholarly articles with Python and prepared 9,120 articles for NLP analysis in IBM Watson Discovery.
- Trained question-answering models for relevance assessment and improved scholarly information retrieval.
- Supported Cloud Pak for Data deployments on OpenShift through IBM Satellite.

PROJECTS

IBM Academy Call for Code Initiative 2020

COVID-19 Research Assistant Chatbot using IBM Watson Discovery AI search and Watson Assistant.

2020 – Present

IBM Clients Showcase 2020

COVID-19 Visual Insights Personal Face Mask Detection system using IBM Cloud Annotation and Watson Machine Learning.

2020 – Present

RESEARCH INTERESTS

- Computational linguistics and Arabic natural language processing.
- Semantic modelling, contextual analysis, information extraction, text classification, and argument analysis.
- Machine learning, GenAI, data analytics, and intelligent information retrieval.
- Current proposal: Applying Natural Language Processing to the Semantic and Contextual Analysis of Classical Arabic Texts.

SKILLS

AI and NLP - Arabic NLP, Computational Linguistics, LLMs, GenAI, Semantic Analysis, AraBERT, CAMeLBERT, Farasa, CAMeL Tools, Arabic OCR

Data and ML - Python, TensorFlow, Machine Learning, Pandas, NumPy, GPU Deep Learning, Data Analytics, IBM Watson

Platforms and Automation - Software Containerization, OpenShift, Kubernetes, CI/CD, Argo CD, IBM Cloud, OCI, Cloud Pak for Data, Automation

Operations and Security - LDAP, Splunk, Instana, Grafana, Dynatrace, Red Hat ACS, ACM, Prisma Cloud, Access Control, SAMA Compliance

EDUCATION

Master of Science in Computer Science

The Catholic University of America

Ministry of Interior — MOI Absher THon Hackathon

Real-time prototype application to predict vehicle accident rates using computer vision methodologies.

2020 – Present

WORKSHOPS & TRAINING

Technical workshop

BSOK Bootcamp: Integrate Deep Learning Models into a Microservices App

Jul 2021 – Jul 2021

- Slides: To be added.

Technical workshop

Introduction to Containers with Node.js and Kubernetes on Red Hat OpenShift 4.x

Jun 2021 – Jun 2021

- Slides: To be added.

Technical workshop

Get Started with Node-RED on Red Hat OpenShift

Jun 2021 – Jun 2021

- Slides: To be added.

Technical workshop

Build Scalable Solutions with Docker and IBM Cloud Container Registry

May 2021 – May 2021

- Slides: To be added.

Technical workshop

News Mining Using Watson Discovery and Red Hat OpenShift

May 2021 – May 2021

- Slides: To be added.

Technical workshop

Explore Industry AI Use Cases

Apr 2021 – Apr 2021

- Slides: To be added.

Technical lab

A Quick Lab to Explore the OpenShift Development Environment

Mar 2021 – Mar 2021

- Slides: To be added.

Arabic technical workshop

Automate Model Building with AutoAI Cloud Pak for Data

Feb 2021 – Feb 2021

- Slides: To be added.

Bachelor of Science in Computer Science

Taif University

Certificate of Completion — English Language Program

University of Alabama in Huntsville

SKILLS DEVELOPMENT

IBM

- IBM Academy of Technology Appreciation · 2020
- Cloud Pak for Data Executive · 2020
- NLP Watson Build Your Own Chatbot · 2019
- NLP for Code Contributor · 2020

Cognitive Class

- Deep Learning with TensorFlow · 2020
- Machine Learning with Python · 2020
- Accelerating Deep Learning with GPU · 2020

Red Hat

- EX280 Red Hat Specialist in OpenShift Administration · 2021
- EX180 Red Hat Specialist in Containers and Kubernetes · 2020

- IEEE CAIDA Appreciation · 2020
- Ministry of Interior Hackathon Appreciation · 2020
- Oracle Cloud Infrastructure · 2020
- Essential Skills for Successful Leaders · 2017

Arabic technical session

Part 1: Deep Dive into Artificial Intelligence

Jan 2021 – Jan 2021

- Slides: To be added.

Technical workshop

Automate Model Building with AutoAI

Oct 2020 – Oct 2020

- Slides: To be added.

Technical workshop

Deploy an End-to-End Deep Learning Microservices App on Red Hat OpenShift

Sep 2020 – Sep 2020

- Slides: To be added.

Technical workshop

Automate Model Building with AutoAI Cloud Pak for Data

Aug 2020 – Aug 2020

- Slides: To be added.

English technical workshop

Build a Docker Container and Deploy It onto Red Hat OpenShift

Jul 2020 – Jul 2020

- Slides: To be added.

English technical workshop

COVID-19 Research Assistant: Watson Discovery in Healthcare

Jun 2020 – Jun 2020

- Slides: To be added.

English technical workshop

Data Science in the Transportation Industry

Jun 2020 – Jun 2020

- Slides: To be added.

English technical workshop

Create an Object Detection App Using IBM Cloud

May 2020 – May 2020

- Slides: To be added.

English technical workshop

Call for Code: Build an App Using the Disaster Resiliency Starter Kit

May 2020 – May 2020

- Slides: To be added.

Arabic webinar

Call for Code Webinar: Build a Video Transcriber Service

Apr 2020 – Apr 2020

- Slides: To be added.

Arabic webinar

Call for Code Webinar: Build a Video Transcriber Service

A Apr 2020 – Apr 2020

- Slides: To be added.

Technical workshop

IBM Power AI Vision Workshop

A Feb 2020 – Feb 2020

- Slides: To be added.

CONFERENCE PARTICIPATION

1st International Conference on Artificial Intelligence (CAIDA)

IEEE — Session Chair, Riyadh

A Apr 2021

Explore Artificial Intelligence Use Cases

Prince Sultan University, CAIDA — Session Chair

A Apr 2021

Introduction to IBM Cloud

KFUPM — Session Participation

A Mar 2020

Explore IBM Power Artificial Intelligence Vision

SAFCSP — Session Participation

A Feb 2020

Winter Conference Applications of Computer Vision (WACV)

IEEE — Waikoloa, Hawaii

A Jan 2019

U.S.-German Standards Panel on Securing Future Technologies

ANSI — Panel Participation

A Apr 2018

Simulation System for Operational Decision Support in Emergency Unit

The Catholic University of America — Research Poster

A Apr 2018
